

Tilley's Top Truths

My need for a proper sailing hat led to the unintended creation of the best such hat in the world, over 25 years ago. My gratitude goes out to those who appreciated the qualities of the first 'Tilley'. This encouragement evolved into my ongoing passion to provide travellers with enduring clothing that allows their focus to be on 'the adventure', rather than the rigours of life on the go.

Alex Tilley

- 1. Wear Them For Your Lifetime.** Tilley Hats, AdventureCloth Classic Shorts, VOMP (Vest of Many Pockets) and all Different Drummer Legends clothing will be replaced FREE if they EVER wear out.
- 2. Hat Ahoy! That's right, Tilley Hats float.** A non-absorbent foam liner in the crown adds buoyancy to ensure your Hat ends up back on land and on your head – if you put your name in it.
- 3. Your Head Doesn't Shrink So Why Would Your Hat?** What good is a hat that no longer fits after you wash it? No good, that's what. Machine or hand-washed, your Tilley Hat will air dry back to its original size in just a few hours.
- 4. Sun Protection Never Looked So Good.** Tilley Hats block 98% of the sun's harmful UV rays. We also work with researchers to select fabrics for our clothing that protect travellers from the sun's damaging rays and then we have them UPF certified, so you'll know it.
- 5. Pack Small.** Lighten your load with clothes that pack small, mix and match with ease and arrive relatively wrinkle-free. With Tilley, you can travel the world with only your carry-on – and some actually do!
- 6. Pity The Pickpockets.** Hidden away and even sealed with Velcro®, our inside secret pockets are unassailable. This means your wallet, keys and passport are as pickpocket-proof as can be.
- 7. Probably The World's Only Insured Hat (Not Counting Tiaras).** Tilley Hats are insured against loss or grievous damage: two years, all perils, 50% deductible.
- 8. Wash 'N' Hike, Wash 'N' Sail, Wash 'N' Sip A Martini...You Get The Idea.** Tilley's are made with ease of care in mind. Most can be laundered in your hotel sink in the evening, hung to dry overnight and be neat and dry for breakfast.
- 9. Tilley Can Even Help You Take Better Pictures.** Look good while travelling the world. Gone are the days when you have to sacrifice style for comfort when packing for your adventure.
